All,

Please take a look at the attached asbestos property assessment summary from evaluations conducted between December 1, 2019 and December 11, 2019.

To date:

- CTEH personnel has conducted 72 (4 industrial/commercial and 68 residential) property sampling assessments.
- CTEH personnel has collected 142 bulk samples and 180 wipe samples for asbestos analysis from 72 property sampling assessments.
- Laboratory analysis results have been received for 208 bulk samples and 166 wipes samples. In some cases, samples include multiple analyses.
- Out of 208 bulk samples, 86 detections of asbestos type have been reported with a range of detections between 2 – 55 %.
- Out of 166 wipe samples, there have not been detections of asbestos structures.

Let me know if you have any questions,

**Pablo Sanchez Soria, Ph.D., CIH**
